RE: Opposition to UGI Electric's Proposed Rate Increase

Dear Chairman DeFrank,

I am writing to express my strong opposition to UGI Electric's request to increase their annual revenue by nearly \$17.3 million, representing an overall increase of approximately 11.9%.

Over the past several weeks, my district offices have been inundated with calls and emails from people who are deeply concerned about how they will absorb yet another increase in their monthly utility bills. Families, seniors on fixed incomes, and working Pennsylvanians are already struggling with the rising cost of groceries, housing, healthcare, and other everyday necessities. This proposed increase would place an unacceptable financial burden on households that are already stretched to their limits.

Under UGI Electric's proposal, the total monthly bill for a typical residential customer using 1,000 kilowatt-hours of electricity per month would increase from \$200.50 to \$226.23, an increase of 12.8%. At a time when many Pennsylvanians are making impossible choices between paying for utilities, medications, or groceries, this level of increase is simply unsustainable.

As State Representative, I believe these customers deserve reliable, affordable service, not another significant rate hike that threatens their financial stability. I respectfully urge the Pennsylvania Public Utility Commission to reject this proposed rate increase at this time.

Thank you for your careful consideration of my concerns and for your continued commitment to protecting Pennsylvania consumers.

Respectfully,

A handwritten signature in cursive script that reads "Jim Haddock".

State Representative Jim Haddock
