

House Bill 1200

The Cannabis Health & Safety Act

A SOLUTION THAT WORKS FOR EVERYONE!

Repairing the damage of the past -
building a better future

Investing in PA

Would generate **over half a billion dollars** each year of **much-needed revenue** back to our state.

Creating Jobs & Protecting Workers

Expands upon our state liquor store system, would **create thousands of union jobs** and protects workers from workplace discrimination - **legal use means legal rights**.

Empowering Local Businesses

Protects our local businesses by **guarding against monopolies** and **making sure Pennsylvania businesses get a fair shot**.

Protecting Public Health - Protecting our Kids

Limits cannabis sales to **21+** and **bans child-targeted packaging** while restricting high-potency products and banning misleading advertising - **this isn't a free-for-all; it puts public health first**.

Reinvesting in our Communities

Reinvests in communities hit **hardest by harmful past policies** - this will support housing, childcare, treatment, job training, and legal services.

Stopping Bad Actors

Stops the proliferation of problem vape shops that **are responsible for selling unregulated products to minors** and racking up nuisance complaints.

This plan delivers a path to justice for people impacted by the old laws.
