Searching for Scholarships and Affording the Balance
There are many ways to pay for higher education, and an important step is searching and applying for scholarships. The more free money you can earn means less money you have to pay back. The presentation will cover types of scholarships available, tips for creating scholarship resumes, and briefly discuss how you can pay for the balance after all your free money is taken into consideration. The presentation will include several resources, including current scholarship opportunities. Join members of the private lending team to learn more.
